

60. A statistical note on certain hæmatological studies of fifty new-born.

P. C. MAHALANOBIS, Calcutta.

J. Dhar has recently published (*Indian Journal of Pediatrics*, Vol. 1, July, 1934) certain valuable hæmatological studies of 50 new-born. The object of the present note is to draw attention to the results which may be obtained by the application of the method of analysis of variance and correlational analysis to such studies.
